

Pioneer Widening and 50th Place Roundabout

Road construction is coming! As part of a network of transportation improvements planned between Royle Road and I-5, the city will be widening Pioneer Street, building N 50th Place, and constructing a roundabout connecting the two.

Pioneer Street closures will be minimized and planned for evening and weekend work whenever possible. Once Costco opens, there will always be a minimum of two access points to alleviate congestion. Closure notifications will be provided at least two weeks prior.
